Ref: DIA Report 831215**NEW DOCUMENTS:**

1. (S/NF) The summarizing on the Bishop-Coard documents is continuing. The files should arrive at Arlington Hall on/about 30 December 1983. As noted last week, the summaries will be reviewed by the DIA Grenada Working Group for accuracy and will not be put into the online ORCON-IRISA File until the summaries are completed.

2. (S/NF) Last week it was reported that there were an additional 250 linear feet still to be processed. This was in error; there is an estimated 150 linear feet. Of these, about 80 linear feet are to be sent up; the other 70 linear feet are to remain in country to be used in the upcoming trials of former Grenadian officials.

OLD DOCUMENTS:

(S/NF) As of COB 21 December, there are 3,524 document folders (an increase of 10 reported last week) indexed in the ORCON-IRISA File. Of these, 3,184 (about 90 percent) have been reviewed and updated. Of the 3,184, 1,277 have been computerized but have not been put into the ORCON-IRISA File.

file***NEW DOCUMENTS:**

(S/NF) The Bishop-Coard files, compound of about 100 linear feet arrived at DIA on 8 December, and are being summarized in the Pentagon by the CAJIT (Central American Joint Intelligence Task Force). The summaries will be reviewed by the DIA Grenada working group for accuracy and will not be put into the online ORCON-IRISA file until after 1 January 1984. In addition to these, reportedly there are about 250 linear feet enroute to DIA.

OLD DOCUMENTS:

(S/NF) As COB 14 December, there still are 3,514 document folders in the ORCON-IRISA online file. Thus far, the summaries of 2,668 of the 3,584 have been reviewed and updated. Of the 2,668, 728 have been computerized but have not been put in the ORCON-IRISA file.
